Response to Request for Service

Entity :	
Requestor :	
Request Date :	**Presented :**

Scope of Work : Protect the subject computer system during the forensic examination from any possible alteration, damage, data corruption, or virus introduction. Discover all requested relevant files on the subject system. This includes existing normal files, hidden files, password-protected files, and encrypted files. Recover all (or as much as possible) of discovered deleted files. Reveal (to the extent possible) the contents of hidden files as well as temporary or swap files used by both the application programs and the operating system. Access (if possible and if legally appropriate) the contents of protected or encrypted files. Print out an overall analysis of the subject computer system, as well as a listing of all possibly relevant files and discovered file data. Provide the system layout, the file structures discovered, discovered data and authorship information, attempts to hide, delete, protect, encrypt information, and anything else discovered and relevant to the items requested during the computer system examination. Provide expert consultation and/or testimony, as required.
